To the people in the middle and easiern sections of Caroa, we appeal with confidence for support. Ours is a pleasant, retired, and healthy situation-sufficiently remote from the various rail roads which intersect each other here, to be free from annoyance. Our location is also abundantly far enough above the level of the sea to insure good health. Of this our history for the three years past affords the most return home at the close of the Spring term, without risk from too sudden transition of climate. it is better, perhaps, on the whole, to take all you can lay hands on. Nobody knows what chances for speculating may turn up. "Acquaint yourself with the geography of the route and region of travel."

Exactly. He who knows where he is going and in

what manner, has fifty per cent. advantage over the ignoramus. Consult rail road tables carefully, and ask of travellers who have been over the road as to routes and hours of starting. Many a man through ignorance "Haveing a good supply of small change, and have no bill or piece higher than ten dollars, that you may not

Don't you wish that you may so arrange it, especially f you are to travel with ladies? "Dress substantially; better be too hot for two or three hours at noon, than to be too cool for the remainder of the twenty-four."

Sense itself. And dress for travel-not for looks. Nothing looks better in travelling than plain clothes, and nothing so snobbish as full dress. "Arrange, under all circumstances, to be at the place
